

BAG FIX™ - Securing Pallet Loads of Plastic and Paper Bags
BAG FIX™ - Protection de palettes pour sacs en plastique et en papier
BAG FIX™ - Palettensicherung für Plastik- und Papiersäcke

Type SM 30

System: Spray Application with Diaphragm Pump and Disposable Container
Système : Application par pulvérisation avec pompe à membrane et réservoir perdu
System: Sprühauftrag mit Membranpumpe und Einwegbehälter

BAG FIX™ Type SM 30

Application:

This system is designed to apply water-soluble and solvent-free GRIP FIX™ (antislip agent) for pallet stability.

The system is used primarily during manual palletizing of paper and PE bags. The amount usually applied with the spray gun is 0.5 – 2 gram for each bag.

A diaphragm pump draws the GRIP FIX® out of the delivery canister and, under low pressure, feeds the spray gun.

System:

Pumping system:

Diaphragm pump

Application nozzles:

1 hand-held spray gun (see delivery volume)

Application pattern:

Spray application freely adjustable

Advantages:

- **Flexible location**, with the movable frame and space for two 30 kg canisters
- **Quick connect**: For easy change of the delivery container
- **Closed system** from the delivery container through the nozzle
- More economical in comparison to brush or paint roller
- Maintenance-free and durable design

Technical data:

- Net air pressure min. 4 bar
- Dimensions of mounting frame:
1200 x 660 x 400 mm
- Finish: RAL 7032, powder coated
- Weight: 15 kg

GRIP FIX™ type (cold-glue):

- Environmentally-friendly
- Water-based and solvent-free
- For foodstuff packaging

Cleaning:

Clean only with soapy water

Standard:

CE- reference
